matter how many new exciting coat trends are turning our heads, we all need a trench in our lives. Chances are, you have already – but is it black? Unlike classic beige, a black trench feels sharper and very now.

Take inspiration from Chanel's iconic tweed and invest in a slim-fitting indoor coat (lightweight enough to wear inside, and far too fabulous to take off). The feminine silhouette elevates the traditional fabric and makes it the perfect party choice, but it's just as spectacular for every day with a simple T-shirt and jeans.
