DENIM
FALL / WINTER
2013

In terms of denim, Diesel is once again leading the evolutionary process with Denim Master. Master is a different denim class going to also bring multiple sewing techniques to make and do more than one wash. It's like a new piece of fabric, not just denim, it's the way it's made in a new generation of denim. All of Diesel's expertise has been applied to the new evolution of denim.
